

3/8"x50'(15m)

Low Pressure Spring Driven Hose Reel - Air/Water

HOSE REEL

- Steel construction with corrosion resistant powder coating.
- Full flow solid swivel joint.
- Multi-position release ratchet, spring fully enclosed.
- Four direction non-sag rollers reduce hose wear abrasion.
- Wall, ceiling or floor mount.

Item No.: L815153G

3/8"x50'(15m)

Spring Driven Reel - Air

HOSE REEL

- Improved Ratchet: Double adjustment function which can lock the cord at any desired length.
- Hybrid polymer hose: good bend radius helps eliminate kinks. Low temperature resistance.
- Seal connection points: protect against leaks.
- 180° swivel with 36"(0.9m) lead-in hose included.

Item No.: 27527153G

40' (12m) 125V Cord Reel

CORD REEL

- Enclosed driven spring: Lateral inside spring is enclosed for protection against the environment.
- Improved ratchet: double adjustment function which can lock cord at any desired length.
- 13/15 Ampere, 12/14AWG.
- For indoor use only.

Item No.: CR6331

180-220L(48-58gallon)

3:1 Mobile Oil Dispensing Kit

LUBRICATION EQUIPMENT

- Suitable for dispensing oil at medium/high viscosity for mobile installations and fixed systems at medium distance.
- Mainly composed of pump, trolley, meter & connection hose.
- Supplied with adjustable 2" bung adapter.
- Drum Application: 180-220L(48-58gallon).
- Pump: 35L/min.

Item No.: 1700233G

115L(30Gallon)

Air Operated Waste Oil Drainer

LUBRICATION EQUIPMENT

- Suitable to drain waste oil from engines, gearboxes and differentials of all vehicles.
- With a special support to allow filters to drain.
- Easy to adjust the height of the oil collecting bowl.
- Tank Capacity: 115L(30gallon)
- Collection Bowl Capacity: 18L(4.8gallon)
- Maximum Height: 74.4"(1890mm)
- Max. Draining Pressure: 7.5psi(0.5bar)

WARNING:
Do not use with corrosive or inflammable fluid.

Item No.: 16211506G

3600lb(1620kg) Trailer Dolly

MATERIAL HANDLING EQUIPMENT

- Great for transporting a variety of trailers, RV's or any other recreational items that have a trailer ball mount hitch.
- Powered by 12Vdc, 7Ah, Sealed Lead-acid batteryx2.
- Easy install & collapsible assembly with an advanced adjustable ball attachment design.
- Patented adjustable ball attachment mechanism helps provides greater mobility and application of use.
- Patented on drive system, helps provide a durable and maintenance-free performance.

Item No.: PD102.01

4° degree
Max. Operable Slope

600lb(300kg) Power Wagon

MATERIAL HANDLING EQUIPMENT

- Ideal for farm and garden use.
- This power wagon can use (1 or 2) 2Ah/4Ah Li-Ion rechargeable batteries to provide 88.8Wh or 177.6Wh (watt hours) to provide a more powerful capability.
- Maximum hauling capacity of 1000 lb (460kg) and 6 cu.ft of cubage to load.
- Deep cycle technology helps provides fast charge times, spill-proof design, better performance in the cold, high power output and low internal/vibration resistance.
- Speeds: Forward: 0-5km/h(3.1MPH) (Variable)/Reverse: 0-3.5km/h(2.2MPH) (Variable).
- The all-purpose modular cargo bed can be used as a fatbed by removing or folding the cargo panels (accessories sold separately).

Item No.: BW401.02

330lb(150kg) Stacker

MATERIAL HANDLING EQUIPMENT

- Two modes: as a stacker to lift object (330lb) or as a hand truck to transfer material (150lb).
- Attach forks or flatbed to lift items.
- Brake pedal for easily and stable stopping.
- Quick disassembly of forks and legs to a minimum size for storage and transportation.
- Excellent choice for warehouses, factories, and other industrial settings that require reliable, heavy-duty lifting equipment.
- Lifting Height: 3.14"~39.37" (80~1000mm)

Item No.: ML101.02
